The chromatic variation and the veining of the product is an intrinsic feature to create the randomness and richness of the colour shading of natural stones to which the collection is inspired. For these reasons, we recommend installing the product choosing tiles from different boxes in order to guarantee a variable and natural random effect of the finished surface. Due to these intrinsic features of the product, the colours represented in this catalogue must only be considered an example of the many possible colour shades.

该产品的颜色变化和纹理是一种内在特征，旨在重新创造自然石材的色彩阴影的随机性和丰富性，这是该系列的灵感来源。基于这些原因，我们建议从不同的盒子中选择瓷砖来安装产品，以保证成品表面的变化和自然的随机效果。由于产品的这些内在特征，本目录中所代表的颜色只能被认为是多种颜色深浅的一个例子。
